PRINTSouth Corporation Achieves ISO 9001:2000 Certification

ATLANTA, GEORGIA – June 7, 2007 – PRINTSouth Corporation, a world class producer of critical documents and specialized printed products, today announced that it's Tempe, Arizona manufacturing facility has become ISO9001:2000 certified.

“The management processes associated with certification will present our customers with a superior product, providing consistent and expected performance,” stated Rick Martin, Vice President. “Certification will standardize the internal operations across our manufacturing facilities and support our continuous improvement objectives.”

PRINTSouth's Richmond facility is working towards ISO compliance and anticipates certification in the fourth quarter of 2007.

About PRINTSouth Corporation

Headquartered in Atlanta, PRINTSouth Corporation is a world class producer of critical documents and specialized printed products. PRINTSouth manufactures and distributes mission critical LaserSelect® documents including jumbo rolls and cut sheet documents.
